Persuing Software Engineering | MERN Stack | Web Development
Haripur District, Khyber Pakhtunkhwa, Pakistan

Summary

I'm currently immersing myself in the world of web development, focusing on mastering the MERN stack – MongoDB, Express.js, React.js, and Node.js. I'm dedicated to enhancing my skills through practical projects and continuous learning. I'm excited to connect with fellow developers and industry professionals.

Beyond my love for coding, I'm equally passionate about volleyball.
